

## Open Call for Research Proposals

***The Angelman Syndrome Foundation announces biannual calls for research proposals to be awarded in support of Angelman syndrome research. Applications will be accepted on a continual basis, with submission deadlines for subsequent review occurring annually on October 15 and April 15.***

Angelman syndrome is a neurodevelopmental disorder caused by deficiency of the ubiquitin protein ligase UBE3A in the brain. Applications in the preclinical, translational and clinical research areas that investigate all aspects of Angelman syndrome will be considered.

**Highest priority will be given to pilot projects to test new ideas about pathogenesis and therapeutics of Angelman syndrome, translational research and clinical research studies. Of particular interest to the ASF are studies related to communication, behavioral issues and identification of issues and treatments that impact the daily life of people with Angelman syndrome and their families.** Researchers from all countries are encouraged to apply.

One- or two-year grants will be awarded for various amounts of up to \$100,000 per year. The application will use the ASF research grant submission form and will include the following:

- Cover page completed including title of proposal and name of principal investigator
- One-page summary abstract of proposed research
- Proposal, including hypothesis, background, research plan, and significance of the proposed research; page limits indicated within application
- Curriculum vitae of the applicant
- One-page detailed budget
  - Indirect costs of up to 10% will be allowed (to be included in the total budget amount not to exceed \$100,000 per year)
- Proposals involving human or animal subjects must be approved by institutional review boards before funding is released. Please include approval with proposal if possible.

**Application submission deadlines will occur annually on October 15 and April 15.** All proposals, including cover letters, will be submitted in one (1) .pdf file using the ASF Grant Submission Form and may be downloaded via the following link on the ASF website:

<http://www.angelman.org/research/call-for-proposals/>

**Subject line to read:** *ASF MM\_20XX General RFP Submission* (e.g., ASF 10\_2015 General RFP Submission)

**File name to read:** *PI's last name\_MM\_20XX\_Gen\_RFP.pdf*. (e.g., *Smith\_10\_2015\_Gen\_RFP.pdf*)

Questions about this announcement should be directed to ASF Scientific Advisory Chair, Dan Harvey, PhD, via ASF at: [research@angelman.org](mailto:research@angelman.org).

Please forward this information to others within your institution and to those interested in conducting Angelman syndrome research.
