

Sample Messages to Help Fundraise for the ASF Walk!

Personalize these messages & share them with your friends & family on email or social media!

MESSAGE #1: You have had an individual with AS in your family for years

[name of family member/friend],

As you know, Angelman syndrome has had a daily effect on our lives for some time. While each day has gotten a little easier, we still wish more than anything that [name of individual with AS]—despite [his/her] amazing attitude and smile—could do everything [his/her] friends can.

And we are only one of the thousands of families who feel the same.

Thankfully, more and more treatments are being discovered and improving [name of individual with AS] quality of life. That means more sleep, less seizures and better balance!

But that momentum will quickly vanish if we quit raising funds for [name of individual with AS] and others. Please donate to help us reach our goal of \$[insert YOUR goal amount] for the Angelman Syndrome Foundation Walk! Your contribution will help make more groundbreaking AS research and daily family support services possible.

Keep the positive energy alive and help our cause by clicking here: [insert link to personal fundraising page].

MESSAGE #2: A child in your family was recently diagnosed with AS

[name of family member/friend],

Our dearest [son/daughter/nephew/niece/etc.] [name of individual with AS] was recently diagnosed with Angelman syndrome, a neuro-genetic disorder that requires life-long care.

It's possible that [name of individual with AS] will experience symptoms such as developmental delays, lack of speech, seizures, walking and balance disorders, and much more for the rest of [his/her] life.

Powerful treatments do exist...and researchers believe they can discover even more. They are also gaining confidence that a cure for AS is becoming more and more likely.

Please help us make more treatments and a cure for AS a reality by donating to the Angelman Syndrome Foundation Walk, which has raised more than \$15 million since 1999 to help kids and adults with AS.

A cure is possible and we need you to help us find it. Contribute to our cause today: [link to personal fundraising page].

MESSAGE #3: You had a life-changing experience at one of the ASF's AS Clinics

[name of family member/friend],

Our family recently visited one of the Angelman Syndrome (AS) Clinics in hopes of getting answers to the questions and challenges we've been having with [name of individual with AS]. We were simply astonished by how much it has changed [name of individual with AS] life...

[insert YOUR personal story at an AS Clinic]

The Angelman Syndrome Foundation (ASF) has opened six AS Clinics around the country and they want to open more so all kids with AS can experience this amazing source of attention and care.

Please donate to the ASF Walk, its largest annual fundraiser, to help open more AS Clinics and maintain existing ones. It cannot be done without you!

Click here to make a difference for [name of individual with AS] and thousands of others today: [\[link to personal fundraising page\]](#).
