FOLLOWED BY

## SWFL Sensory-Friendly Spring Fest

Enjoy local food trucks, craft beers, music, dancing, bounce houses, face painting, sensory activities, and more!

### What is AS

Angelman syndrome is a rare, neurogenetic disorder on chromosome 15 that causes severe seizures, developmental delays, lack of speech, sleep/eating disorders, physical and behavioral challenges. The good news is, we are close to a cure! Clinical trials have just begun and we are hopeful and DETERMINED to help our families.

### 50 Locations

Nationwide we are gathering to fundraise and walk in solidarity in May. There is a family walk event in our community, and we want your support! Determine to have your family join us, or donate to our Walk site at [angelman.org/walk](http://angelman.org/walk).

Register BEFORE 4/6/20 to receive an ASF Walk T-Shirt and Swag bag!

Register Today at:  
[Angelman.org/walk](http://Angelman.org/walk)
