

# Do you care for someone with Angelman Syndrome?

Please help us reach our goal to  
“capture the patient’s voice!”

[www.clinoutsolutions.com](http://www.clinoutsolutions.com)

We are interested in interviewing caregivers of individuals (of any age) who have been diagnosed with Angelman syndrome. Is this you?

As part of this interview, we would like to talk to you about a new questionnaire that has been developed to capture information about people living with Angelman syndrome, and to also ask a couple of questions about what it is like to care for someone with Angelman syndrome.

## The interview is low burden:

- A single interview, up to 60 minutes
- Conducted via secure online teleconference
- Scheduled at your convenience
- You will be compensated \$125 for your time taken to talk to us

If you are interested in taking part you will need to answer a few questions using the link below, sign a consent form, and upload confirmation of the Angelman syndrome diagnosis for the person you care for such as a doctor’s note, medication slip etc:
