

RESILIENCE

An Immersive Experience with Angelman Syndrome Foundation

ASF Family Conference & Research Symposium 2024

Join us as we gather families, care providers, therapists, teachers, scientists, researchers and industry partners under one roof to learn and discuss the latest information on Angelman syndrome.

Join us for this a one-of-a-kind experience!

Kalahari Resorts | Sandusky, OH

July 22-23: Research Symposium | July 23-26: Family Conference

Introduction

Vision

To improve the lives of individuals with Angelman syndrome (AS) and their families

Mission

The mission of Angelman Syndrome Foundation is to advance the awareness and treatment of Angelman syndrome through education and information, research, and support for individuals with Angelman syndrome, their families and other concerned parties. We exist to give all of them a reason to smile, with the ultimate goal of finding a cure.

About Angelman Syndrome

Angelman syndrome is a rare neuro-genetic disorder that occurs in one in 15,000 live births. AS is often misdiagnosed as cerebral palsy or autism due to lack of awareness. Characteristics of the disorder include developmental delay, lack of speech, seizures, life-long behavioral and GI issues and walking and balance disorders. Individuals with AS will require life-long care.

About ASF Research Symposium & Family Conference

The ASF Research Symposium & Family Conference is the largest Angelman syndrome meeting in the world, with AS families, individuals with AS, researchers, medical experts and resource professionals attending more than 40 seminars and learning sessions addressing nearly every topic about AS.

The ASF Research Symposium provides an international forum for presentation and open discussion surrounding all aspects of Angelman syndrome. The leading global AS research symposium brings together the foremost, world-class network of AS scientists experiences and treatments specific to AS. The meeting format focuses on open discussion and provides attendees with the opportunity to network informally during multiple times throughout the meeting.

The ASF Family Conference provides attendees the opportunity to learn about all things Angelman—across the entire lifespan of AS. This meeting will focus on the key challenging areas families and care providers have identified of most concern: behaviors, communications, adult services, resources and supports, seizures and understanding AS across the lifespan. Opportunities abound for exhibitors and sponsors to help families address all of the critical needs and issues during this intense and exciting day meeting.
